Abstract............................................................................................... xxi

1.0: INTRODUCTION
1.1 Background to the Research........................................................... 1
1.2 Problem Statement..................................................................... 4
1.3 Research Aim and Objectives....................................................... 5
1.4 Research Questions..................................................................... 6
1.5 Scope of the Research................................................................ 7
1.6 Research Plan............................................................................ 8
1.7 Structure of the Thesis............................................................... 10
1.8 Summary and Link................................................................... 12

2.0: THE LITERATURE BACKGROUND OF STUDY
2.1 Introduction.................................................................................. 13
2.2 The Regeneration Policies in the UK........................................... 13
  2.2.1 Overview of the regeneration policies in the UK.................. 13
      2.2.1.1 Social exclusion................................................. 16
      2.2.1.2 Liveability........................................................ 17
      2.2.1.3 Sustainable communities............................... 18
  2.3 The Sustainable Communities Agenda................................. 21
2.4 The HMR.................................................................................... 23
  2.4.1 Aims of the HMR............................................................... 25
  2.4.2 Evidence-base for the HMR............................................. 26
  2.4.3 Why the HMR differs from previous regeneration policies.... 29
Table of Contents

2.5 The Pathfinder' Intentions and Local Communities' Expectations in the HMR Process........................................................................................................31
2.6 Overview of Community Engagement in the Regeneration Initiatives........32
  2.6.1 Defining community engagement.........................................................32
  2.6.2 Community engagement and regeneration agenda.............................36
2.7 Overview of the Stakeholders' Engagement in the HMR process..............38
  2.7.1 Pathfinders and community engagement activities..............................38
     2.7.1.1 Local communities in the Pathfinder areas.................................38
     2.7.1.2 Typologies of community engagement within the
            Pathfinders' areas........................................................................39
  2.7.2 The community engagement strategies by different Pathfinders......42
     2.7.2.1 Elevate East Lancashire Pathfinder............................................42
     2.7.2.2 Manchester-Salford Partnerships...............................................43
     2.7.2.3 Bridging Newcastle Gateshead...................................................43
  2.7.3 Overview of the legislative framework for community engagement in
      the HMR process.................................................................................44
  2.7.4 Overview of the community engagement guidance in the HMR
      process.................................................................................................45
2.8 Skills Needed Necessarily for Improving the Full Level of Community
      Engagement in the HMR Process..........................................................48
  2.8.1 Understanding skills and competencies.............................................48
  2.8.2 Understanding the skills necessary for community engagement in the
      HMR Process.......................................................................................49
  2.8.3 Overview of the skills necessarily for sustainable communities........51
  2.8.4 Understanding the existing professional practice...............................57
2.9 Skills for community engagement in the HMR process from FM
      perspective.............................................................................................61
2.10 A Theoretical Skills Gap Necessary for Attaining the Full Level of
      community engagement in the HMR Process........................................64
2.11 The Theoretical Research Questions Development..................................65
2.12 Summary and Link..................................................................................66
3.0: RESEARCH DESIGN AND METHODOLOGY

3.1 Introduction .............................................................................67
3.2 A Nested Research Methodology ...................................................67
3.3 Overall Research Process ............................................................68
3.4 Research Questions Development .................................................69
3.5 Research Philosophy ...................................................................70
  3.5.1 The positivism paradigm ...................................................71
  3.5.2 The interpretivism paradigm ...............................................72
3.6 Research Approach ....................................................................76
  3.6.1 Types of case study designs .................................................78
  3.6.2 Research propositions .......................................................80
  3.6.3 Unit of analysis ................................................................81
  3.6.4 Linking data to propositions ..........................................................82
3.7 Research Techniques: Criteria of Interpreting the Findings ..............83
  3.7.1 Data collection techniques ...................................................83
    3.7.1.1 Interviews ................................................................83
    3.7.1.2 Focus group ........................................................ 86
    3.7.1.3 Document review ................................................ 86
    3.7.1.4 Discussions with local communities ....................... 87
  3.7.2 Data Analysis and Presentation Techniques...............................88
    3.7.2.1 Content Analysis ................................................. 88
    3.7.2.2 Cognitive Mapping ............................................... 89
    3.7.2.3 Social Network Analysis ....................................... 91
3.8 Validation in this Case Study ........................................................93
  3.8.1 Triangulation in this case study .............................................93
  3.8.2 Validity .....................................................................94
    3.8.2.1 Construct validity ................................................ 95
    3.8.2.2 Internal validity ................................................ 96
    3.8.2.3 External validity ................................................ 96
  3.8.3 Reliability ....................................................................97
3.9 Summary and Link ...................................................................98
4.0: CASE STUDY – DATA COLLECTION, ANALYSIS AND FINDINGS
FROM AN EXPLORATORY PHASE

4.1 Introduction .............................................................. 99
4.2 The Aims of this Exploratory Study ................................................ 99
4.3 Methodology Used in this Exploratory Study .................................... 100
  4.3.1 Research propositions ...................................................... 100
  4.3.2 Units of analysis ............................................................ 101
    4.3.2.1 Factors governing the choice of East Lancashire for this
    exploratory study.............................................................. 101
    4.3.2.2 Interviews structure and the questionnaires .................. 102
  4.3.3 Linking data to propositions .............................................. 103
  4.3.4 Criteria for interpreting the findings .................................... 104
4.4 Overview of HMR in the East Lancashire Pathfinder .......................... 105
  4.4.1 Elevate East Lancashire Pathfinder ..................................... 105
    4.4.1.1 Other national policies links .................................. 106
    4.4.1.2 The Strategy for Elevate East Lancashire Pathfinder ...... 107
    4.4.1.3 Area development frameworks (ADFs ) ........................ 108
    4.4.1.4 Elevate’s management arrangement structure .............. 109
    4.4.1.5 Divers for housing market failure in the East
    Lancashire ...................................................................... 111
  4.4.2 The HMR in the Borough ................................................. 112
    4.4.2.1 ADFs and the HMR objectives for the Borough ............. 113
    4.4.2.2 Overview of housing market in the Borough ADFs ........ 114
    4.4.2.3 Social factors in the Borough’s ADFs .......................... 115
    4.4.2.4 Structural factors in the Borough HMR ADFs ............. 116
    4.4.2.5 HMR work delivery progress in the Borough .............. 119
  4.4.3 A Bank Top ADF .......................................................... 122
    4.4.3.1 Overview of housing market in Bank Top ADF ............. 122
    4.4.3.2 Housing demand and supply mismatch ...................... 124
    4.4.3.3 House condition in the Bank Top ADF ....................... 124
    4.4.3.4 Social factors in the Bank Top ADF ......................... 125

ACKNOWLEDGEMENT

I would like to thank many people, without their help this thesis would not have materialised. To my supervisor professor Keith Alexander, thank you so much for your patience, for your time, for your academic and moral support and for reading all those unending drafts. Grateful thank is also due to my co-supervisor Mr John Hudson for constructive comments and constant support throughout this PhD process.

Special thanks also go to the staff for Centre for Facilities Management (CFM); the staff of research office for the School in Built Environment and friends/colleagues in the post graduate room for their support, time and friendships.

To my wonderful son, Sayid Bajrai and wonderful daughter, Hanan Bajrai, thank you for putting up for so many years with 'ummi' who 'lived in the study', for your love, understanding and encouragement. To my parents and family whom I am sure would have been proud, thank you so much for believing in me.

Lastly, but most especially to my beloved husband, your love, patience and support have been unending. Thank you for providing me with the time and space I needed, for the lovely cards, for the cups of hot chocolate and for believing in me. This thesis is dedicated to you.
Declaration

clarification

I declare that this thesis was the result of my own work. There is no portion of the work covered in his thesis that has been submitted in support of any application for another degree or classification at this or other institutions of higher learning.
